

UKI Manager – Day of Show Tasks

Update Yardage page

For each class the judge will provide yardage and standard course times. To update this information, you will go to the “Update Yardage” button which is found on both the list of shows summary as well as the Shows detail page.

Also, when the judge provides their courses, you will need to use the Update Yardage page to indicate which events use AFrames, Spreads and Tables. (Note, most judges do not use spread jumps or tables in their courses)

When the program generates the run order for each class, which it does when you generate the Gate Sheets, it will take into account courses that have AFrames and Spread jumps in calculating the dog

order. Classes with AFrames will group dogs that require the same height AFrame together and will provide a reminder note on the Gate Sheet so that the gate steward can call out the change. If there are Spread jumps, the program will group Select dogs together to minimize course changes.

* Required field(s)

When the judge wheels the course, he will provide the yardage. He should also indicate a Yards Per Second (YPS) rate or a set of Standard Course Times (SCT) for the course. The program takes a YPS Rate (UKI indicates two rates, one for easier courses and one for more difficult courses) and the YPS Rate along with the course yardage will provide a calculation based on UKI's guidelines for SCTs.

The programs SCT calculation may not match what the judge wants to use as the judge can specify course times as they see fit.

After entering the YPS Rate and the Course Yards, click Save to get an "SCT" link to the far right of the Yardage page. Below I have provided a Course Yards just for the Beginner/Novice course.

List & Create Shows ×

Update Course Details Mile High Agility Association June 30-July 1, 2018

[Save](#) [Back](#)

	Day	Event	Has Aframe	Has Spreads	Has Table	YPS Rate	Course Yards B/N	Course Yards S/C	Opening Time	Close Time	SCT
1	Saturday	Speedstakes-1	No ▾	No ▾	No ▾	High YPS (Easy course) ▾	135	0			SCT
2	Saturday	Jumping-1	No ▾	No ▾	No ▾		0	0			

Clicking the SCT link gives a page that allows for reviewing and /or changing the SCT values for each class of dogs.

Standard Course Time							
				Save	Exit		
		Class	Level	SCT Large Dogs	SCT Small Dogs	SCT Large (Select)	SCT Small (Select)
1	<input type="checkbox"/>	Saturday:Speedstakes-1	Beginner	<input type="text" value="49"/>	<input type="text" value="59"/>	<input type="text" value="52"/>	<input type="text" value="62"/>

Gate Sheets

Generating the Gate Sheets for a class will perform the sorting based on the order specified in the show setup, ie Small to Tall, Beginners First. It will also take into account whether or not the course uses an AFrame, Spread Jump or Table.

Important : You should generate the Gate Sheets before Scribe Sheets or performing any scoring operations as the Gate Sheets provides the sorting for these other pages.

The “Notes” column of the gate sheet may contain information about the AFrame height for courses that use an AFrame.

Scribe Sheets

The scribe sheets are in a “page” format by design. The sort will match the gate sheet and should make scoring much easier without having to locate individual scribe sheets.

You will want to update the Yardage information for the class before generating the scribe sheets if possible, as the scribe sheet includes the SCT information for each dog.

Scribe sheets may be exported to a PDF, a Word Document, an XLS spreadsheet or printed depending on the needs of the scribe.

There is a menu option for Blank scribe sheets, which you may want to print if you are accepting Day-Of-Show entries and the competitors are not entered into the system at the time the scribe sheets are needed.

Scoring

The score entry page will display the dogs in the same order as on the scribe sheet which should make score entry easier.

Important You MUST enter the SCT information before entering any scores! There will be a message at the top of the page if SCT values are not found, and the SCT column should show values when you display the list of competitors.

Step 1- Click Filter

The screenshot shows the 'Score Entry' form for 'Saturday: Speedstakes-1'. At the top, there is a search bar with 'Enter Scores' and a close button. Below this, the form has a 'Quick search' input, a 'Filter' button (highlighted with a red arrow), a 'Save' button, and a 'Back' button. The main table lists two entries:

	Handler	Dog	Height	Type	Level	SCT	Time	Faults	Level Pts	Place	Qualify
1	<input type="checkbox"/> Lydia Goggin	Tesla (15183)	12	Regular	Beginner	59	0.000	0	0	0	<input type="checkbox"/>
2	<input type="checkbox"/> Graham Thomas	Ty (14842)	12	Regular	Beginner	59	0.000	0	0	0	<input type="checkbox"/>

Step 2- Click Add Fields

The screenshot shows the 'Score Entry' form with the 'Dynamic Search' section expanded. A red arrow points to the 'Add Fields' button. The 'Dynamic Search' section includes 'Add Fields', 'Clear', and 'Apply' buttons. The table below shows the same two entries as before:

	Handler	Dog	Height	Type	Level	SCT	Time	Faults	Level Pts	Place	Qualify
1	<input type="checkbox"/> Lydia Goggin	Tesla (15183)	12	Regular	Beginner	59	0.000	0	0	0	<input type="checkbox"/>
2	<input type="checkbox"/> Graham Thomas	Ty (14842)	12	Regular	Beginner	59	0.000	0	0	0	<input type="checkbox"/>

Step 3- Select the levels you need and then click Apply

The screenshot shows the 'Score Entry' form with the 'Dynamic Search' section expanded. A red box highlights the 'Beginner' and 'Novice' level checkboxes, which are both checked. A red arrow points to the 'Apply' button. The table below shows three entries, including a new one:

	Handler	Dog	Height	Type	Level	SCT	Time	Faults	Level Pts	Place	Qualify
1	<input type="checkbox"/> Lydia Goggin	Tesla (15183)	12	Regular	Beginner	59	0.000	0	0	0	<input type="checkbox"/>
2	<input type="checkbox"/> Graham Thomas	Ty (14842)	12	Regular	Beginner	59	0.000	0	0	0	<input type="checkbox"/>
3	<input type="checkbox"/> Claudia Peterson	Fizz (14089)	16	Regular	Beginner	59	0.000	0	0	0	<input type="checkbox"/>

Now the display will only show those levels.

After you enter some scores and click Save, a button will appear that allows you to calculate the placements and level points. You only need to click the calculate button when you are done scoring a class.

Enter Scores x

After saving all of the scores, click the Calculate Placements button.

Score Entry Saturday: Speedstakes-1

13	<input type="checkbox"/>	Tammy Sherman	Bungee (15006)	20	Regular	Beginner	49	61.000	15	0	0	<input type="checkbox"/>

The system will make scoring Gamblers and Snooker classes easier on the person entering the scores as you can enter the points accumulated as a string of numbers and the program will add them together for you.

For example, if a snooker run had 1+7+1+0+1+6, and they got through the 6 in the closing, then enter that into the “Games Points” field on the scoring as 17101623456 and when you tab out of the field, that will be replaced with the total:

Score Entry

Saturday: Snooker-1
